

## Quilts For Kids Disappearing Nine-Patch

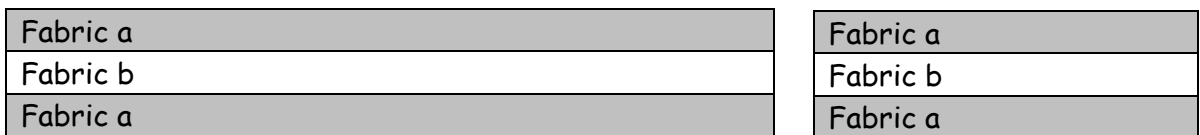

Have fun making this quick and easy quilt. Remember, a  $\frac{1}{4}$ " seam allowance is used for all seams.

### Fabric Requirements (Non-directional prints work best)

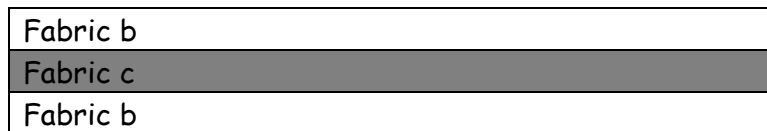

- 3 - 6" strips of fabric A (cut the width of the fabric - approx. 40-44" long)
- 3  $\frac{1}{2}$  - 6" strips of fabric B (3 cut the width of the fabric and one  $\frac{1}{2}$  strip approx 20" long)
- 1 - 6" strip of fabric C (cut the width of the fabric)
- 4 - 1 1/2" strips of Inner Border Fabric (cut the width of the fabric)
- 4 - 3 1/2" strips of Outer Border Fabric (cut the width of the fabric)

### Assembling the Blocks

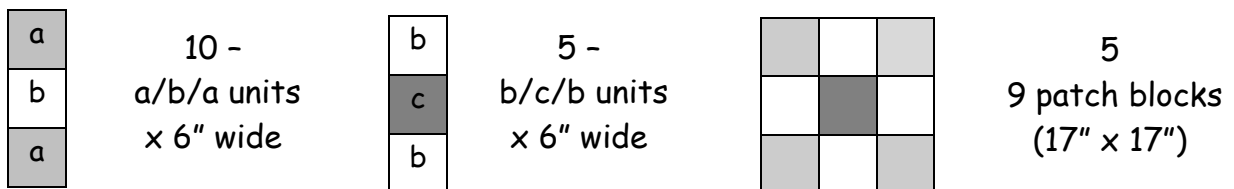

1. Cut one strip of fabric A in half.
2. Sew two strip sets together as follows (one set with the long strips and one set with the shorter strips). Press toward the darker fabric.

3. Sew one strip set together as shown below. Press to the darker fabric.

4. Cut these strip sets vertically into 6" strips. Sew the sets together to create 5 Nine-Patch blocks that measure 17" square.

5. After the blocks are completed, cut each of your five blocks once across the center both horizontally and vertically as shown below. You will now have a total of 20 blocks. Have fun arranging them in different layouts.
